3. Hazards identification

Physical/chemical hazards: Not applicable.

Human health hazards: Harmful by inhalation, in contact with skin and if swallowed.

4. First-aid measures

First-Aid measures

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Ingestion: Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband.

Skin Contact: In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention.

Eye Contact: Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention.

Effects and symptoms

Inhalation: Hazardous in case of inhalation.

Ingestion: Hazardous in case of ingestion.

Skin Contact: Hazardous in case of skin contact (permeator).

Aggravating conditions: Repeated or prolonged exposure is not known to aggravate medical condition.

5. Fire-fighting measures

Extinguishing Media

Suitable: SMALL FIRE: Use DRY chemical powder.

Hazardous thermal (de)composition products: These products are carbon oxides (CO, CO2), nitrogen oxides (NO, NO2...).

Special fire-fighting procedures: Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear.

Protection of fire-fighters: Be sure to use an approved/certified respirator or equivalent.
6. Accidental release measures

**Personal precautions:**
Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.

**Environmental Precautions and Clean-up Methods:**
Splash goggles. Full suit. Dust respirator. Boots. Gloves. A self-contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

7. Handling and storage

**Handling:**
Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk; evaporate the residue under a fume hood. Ground all equipment containing material. Do not ingest. Do not breathe dust. Avoid contact with skin. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Keep away from incompatibles such as oxidizing agents.

**Storage:**
Keep container tightly closed. Keep container in a cool, well-ventilated area. Do not store above 20°C (68°F).

**Packaging materials:**
Use original container.

8. Exposure controls/personal protection

**Engineering measures:**
Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

**Hygiene measures:**
Wash hands, forearms, and face thoroughly after handling compounds and before eating, smoking, using lavatory, and at the end of day.

</table>

**Personal protective equipment:**
- **Respiratory system:** Dust respirator. Be sure to use an approved/certified respirator or equivalent. Wear appropriate respirator when ventilation is inadequate.
- **Skin and body:** Lab coat.
- **Hands:** Gloves.
- **Eyes:** Safety glasses.

9. Physical and chemical properties

**Physical state:** Solid. (Solid powder.)

**Color:** White to yellowish.

**Melting Point:** 300°C (572°F)

**Density:** Not available.

**Solubility:** Easily soluble in cold water.

**Flash point:** Not available.

**Explosive properties:** Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

10. Stability and reactivity

**Stability:** The product is stable.

**Materials to avoid:** Reactive with oxidizing agents.

**Hazardous Decomposition Products:** These products are carbon oxides (CO, CO2), nitrogen oxides (NO, NO2...).

11. Toxicological information

**RTECS #**
AU6125000

**Local effects:**
- **Skin irritation:** Not available.
- **Acute toxicity:** Acute oral toxicity (LD50): 227 mg/kg [Rat].
- **Chronic toxicity:** Repeated or prolonged exposure is not known to aggravate medical condition.
12. Ecological information

Ecotoxicity: Not available.

13. Disposal considerations

Methods of disposal; Waste of residues; Contaminated packaging: Waste must be disposed of in accordance with federal, state and local environmental control regulations.

14. Transport information

International transport regulations

Land - Road/Railway

ADR/RID Class: Not controlled under ADR (Europe).

Sea

IMDG Class: Not controlled under IMDG.

Air

IATA-DGR Class: Not controlled under IATA.

15. Regulatory information

EU Regulations

Hazard symbol(s):

Classification: Harmful

Risk Phrases: R20/21/22- Harmful by inhalation, in contact with skin and if swallowed.

Safety Phrases: S36- Wear suitable protective clothing.

Contains: - Adenine

16. Other information

Notice to Reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
