1. Product Identification

**Synonyms:** Milk sugar; (beta)-Lactose; Lactose, monohydrate  
**CAS No.:** 63-42-3 (Anhydrous) 64044-51-5 (Monohydrate)  
**Molecular Weight:** 360.32  
**Chemical Formula:** C12H22O11.H2O  
**Product Codes:**  
- J.T. Baker: P347  
- Mallinckrodt: 5652, 6270, 7795

3. Hazards Identification

**Emergency Overview**

As part of good industrial and personal hygiene and safety procedure, avoid all unnecessary exposure to the chemical substance and ensure prompt removal from skin, eyes and clothing.

**J.T. Baker SAF-T-DATA**(tm) Ratings (Provided here for your convenience)

- Health Rating: 0 - None  
- Flammability Rating: 1 - Slight
Reactivity Rating: 1 - Slight
Contact Rating: 0 - None
Lab Protective Equip: GOGGLES; LAB COAT
Storage Color Code: Orange (General Storage)

---

**Potential Health Effects**

---

**Inhalation:**
Inhalation of high concentrations of dust may irritate the throat.

**Ingestion:**
May produce abdominal irritation if large quantities are consumed.

**Skin Contact:**
May irritate the skin on some super-sensitive persons.

**Eye Contact:**
May cause mechanical irritation.

**Chronic Exposure:**
No information found.

**Aggravation of Pre-existing Conditions:**
No information found.

---

### 4. First Aid Measures

**Inhalation:**
Remove to fresh air. Get medical attention for any breathing difficulty.

**Ingestion:**
If large amounts were swallowed, give water to drink and get medical advice.

**Skin Contact:**
Wash exposed area with soap and water. Get medical advice if irritation develops.

**Eye Contact:**
Wash thoroughly with running water. Get medical advice if irritation develops.

---

### 5. Fire Fighting Measures

**Fire:**
As with most organic solids, fire is possible at elevated temperatures or by contact with an ignition source.

**Explosion:**
Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Lower explosive limit: 0.125 g/l in air.

**Fire Extinguishing Media:**
Dry chemical, alcohol foam or carbon dioxide.

**Special Information:**
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Water spray may be used to keep fire exposed containers cool.
6. Accidental Release Measures

Remove all sources of ignition. Ventilate area of leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Clean up spills in a manner that does not disperse dust into the air. Use non-sparking tools and equipment. Reduce airborne dust and prevent scattering by moistening with water. Pick up spill for recovery or disposal and place in a closed container.

7. Handling and Storage

Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

8. Exposure Controls/Personal Protection

**Airborne Exposure Limits:**
None established.

**Ventilation System:**
A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, *Industrial Ventilation, A Manual of Recommended Practices*, most recent edition, for details.

**Personal Respirators (NIOSH Approved):**
For conditions of use where exposure to the dust or mist is apparent, a half-face dust/mist respirator may be worn. For emergencies or instances where the exposure levels are not known, use a full-face positive-pressure, air-supplied respirator. WARNING: Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

**Skin Protection:**
Wear protective gloves and clean body-covering clothing.

**Eye Protection:**
Safety glasses. Maintain eye wash fountain and quick-drench facilities in work area.

9. Physical and Chemical Properties

**Appearance:**
White crystals or white powder.

**Odor:**
Odorless.

**Solubility:**
Soluble in water.

**Density:**
1.525 @ 20C

**pH:**
No information found.

**% Volatiles by volume @ 21C (70F):**
0

**Boiling Point:**
Decomposes.

**Melting Point:**
10. Stability and Reactivity

**Stability:**
Stable under ordinary conditions of use and storage.

**Hazardous Decomposition Products:**
Carbon dioxide and carbon monoxide may form when heated to decomposition.

**Hazardous Polymerization:**
Will not occur.

**Incompatibilities:**
Strong oxidizers.

**Conditions to Avoid:**
No information found.

11. Toxicological Information

LD50 oral, rat $> 10$ gm/Kg. Investigated as a tumorigen and a reproductive effector.

12. Ecological Information

**Environmental Fate:**
No information found.

**Environmental Toxicity:**
No information found.

13. Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.
14. Transport Information

Not regulated.

WHMIS:
This MSDS has been prepared according to the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

16. Other Information

NFPA Ratings: Health: 0  Flammability: 1  Reactivity: 0
Label Hazard Warning:
As part of good industrial and personal hygiene and safety procedure, avoid all unnecessary exposure to the chemical substance and ensure prompt removal from skin, eyes and clothing.
Label Precautions:
None.
Label First Aid:
LACTOSE

Not applicable.

Product Use:
Laboratory Reagent.
