Airport Operations
Chicago Executive Airport

Kelly Smith, RN, BSN ’06
Cardiac Telemetry Unit
Edward Hospital

Clinton Sebastian, BA ’95
Police Officer
Chicago Police Department

READ ALUMNI SUCCESS STORIES AT
www.lewisu.edu/outcomes
I am pleased that you are interested in Lewis University, the ninth largest private, not-for-profit university in Illinois. **Lewis is a dynamic, mid-sized University of nearly 6,500 undergraduate and graduate students, offering small interactive classes, high quality academic programs, a very well-qualified faculty, impressive academic facilities, service opportunities, NCAA Division II athletics, a wide range of campus activities and a wonderfully-diverse community.** Our values-centered curriculum combines a liberal arts foundation with relevant professional education. For seven consecutive years, Lewis has been named one of the “Best Colleges” by *U.S. News & World Report* and received recognition from The Princeton Review.

A Catholic and Lasallian university sponsored by the De La Salle Christian Brothers, Lewis focuses on faculty/student interaction. Excellent teaching is a top priority here. Small, personalized classes provide faculty with an opportunity to mentor their students and to involve them in learning projects and applied research.

Our extensive internship program will help you to gain real world experience while giving you the confidence to pursue the career of your choice. You will be encouraged to study abroad through many of the arrangements we have with our Lasallian partner schools around the world. In the Lasallian tradition, Lewis prepares graduates who are intellectually engaged, ethically grounded, socially responsible and globally aware.

The Lewis main campus is located in Romeoville, Ill., and provides the perfect environment for learning and recreation. A beautiful, safe, self-contained campus, it is close to Chicago so that students can enjoy the resources of a world-class city. We invite you to learn more about our campus by visiting us in person. I am confident that you will find Lewis University to be an exciting and engaging community where you will grow personally and professionally.

Sincerely,

Brother James Gaffney, FSC
President
Our sponsors, the De La Salle Christian Brothers, have a tradition of excellence in teaching. Shaped by ethics and values, the Lasallian approach to teaching is a contemporary, person-centered education that allows you to graduate with confidence and capability.

Few universities offer an education that feels as personal as it does at Lewis. Small class sizes mean faculty get to know you and your career goals, ensuring that you will have mentoring and guidance throughout your four years here. Ninety percent of our classes have fewer than 30 students and many have less than 20. None are taught by graduate students. You will discover easy access to professors who are responsive and supportive, as well as tutoring and skill development programs for additional academic support.
What most people know about Lewis Broadcast Communications instructor and alumnus John Kilpatrick is that he’s the University’s Emmy Award-winning professor. As one of 16 editors for the Oprah Winfrey show, Professor Kilpatrick has won Emmy Awards for “Outstanding Achievement in Multiple Camera Editing” in 2000, 2002 and in 2004. He’s been nominated for an Emmy ten times for his work on the show.

What most people don’t know about Professor Kilpatrick is that despite his national recognition in the field of television, teaching is truly his real love. “I have a job [teaching], but to me it’s not a job. It’s a love and a passion,” he asserts. “Helping my students get prepared for the real world, and learning from them as much as I teach them, is what keeps me going in life. I want my students to go one step farther in life than I did, to achieve a goal greater than mine,” Kilpatrick says. “That would be a great accomplishment for me. At that point my life will have come full circle.”
Internships and practical experiences are encouraged for all of our majors. **It is the direct application of what you learn that makes the Lasallian approach both practical and cutting-edge.** Your faculty will challenge and encourage you to develop to your full potential. You will have opportunities to apply what you’ve learned in the classroom through service learning, clinical experiences, research projects, team competition, and internships.

**APPLIED RESEARCH PROJECTS**

- Public health-related Methicillin-Resistant Staphylococcus Aureus (MRSA) monitoring project
- Computer Simulation of Emergency Department Surge Capacity
- Perceptions of Career Competency Factors and Job Satisfaction in Men and Women
- Applications of Nanotechnology in Environmental Remediation
- The Relationship of Perceived Patient Responsibility to Organ Donation Prioritizing
- Forensics Application - Synthesis of Functionalized Nanoparticles for Enhanced Fingerprint Detection
- Alternative Energy - Electron Transfer Processes in Microbial Fuel Cells

**FACT**

90% of students use their degree in their chosen occupation, or go on to graduate school.
“Peter Waller is studying biology with the hope of attending medical school and becoming a family practice physician. Peter’s MRSA research projects with professors and students in the field of microbiology led him to represent the University during a research study trip to a lab in Arizona. He learned an innovative rapid, mass spectrometry-based technique that can be used to characterize strains of many different types of microorganisms. Upon his return, Peter trained students and faculty on the technique and continued collaboration with researchers in Arizona. “This experience allowed me to take charge of a specific research opportunity and see it from start to finish,” said Peter.

Peter Waller, Biology major
St. Joseph High School, Westchester, Illinois
Lewis University’s reputation is built on outstanding programs offered in the College of Arts and Sciences, College of Business, College of Education and College of Nursing and Health Professions. *Whether you are focused on a specific career path or looking to discover your future profession, we have a breadth of programs to match your talents, skills and interests.*

**PROGRAM HIGHLIGHTS AT LEWIS**

- Largest bachelor’s degree program in Nursing in Illinois
- Only university selected in Illinois by FAA to offer Air Traffic Control program
- Second largest Criminal/Social Justice program in Illinois
- Athletic Training Education program accredited by CAATE
- NCATE accredited College of Education programs
You will develop critical thinking and problem solving skills through our liberal arts foundation of core classes. You will also learn how to think, and gain the knowledge you need to be successful throughout life. The **College of Arts and Sciences** is the oldest college on campus and has a diverse range of majors including biology, chemistry, and physics, computer science, aviation, criminal/social justice, forensic criminal investigation, communications, psychology, athletic training, and the fine arts.

**Meeting a Need in Aviation**

Lewis University is one of only 36 schools nationally, and the only one in Illinois, to be approved by the Federal Aviation Administration (FAA) to offer the Air Traffic Control program. With an estimated need to hire more than 15,000 air traffic controllers in the coming decade, it was only natural for the FAA to look to Lewis University to help fill this gap. Lewis has a 80-year history of providing leadership in aviation education. Programs in aviation flight, aviation management, aviation maintenance, aviation security, air traffic control, and a new major in transportation administration make Lewis a one-stop shop for students interested in any field of the aviation industry.

**Daniel Perez**

**Air Traffic Control and Flight Management, double major**
Carl Sandburg High School
Orland Park, Illinois

Daniel (Dan) Perez is the first person in his immediate family to earn a college degree and also the first in his entire family to pursue aviation. Confident in what he does, Dan is willing to continually improve in order to secure a position in the aviation industry as a pilot or an air traffic controller. “Aviation is my passion,” Dan shared.

**The reputation of the University’s flight school was the main reason Dan chose to attend Lewis University.** Other reasons included the location of the University as well as the financial aid package that he received. Dan enjoys being a member of the Lewis University Flight team and is extremely pleased to have completed four certificates in his three years of training. Looking further towards the future, Dan plans on taking the Air Traffic – Selection and Aptitude Test to become an Air Traffic Controller.
Francisco Renteria
Criminal/Social Justice major
Reavis High School, Burbank, Illinois

Francisco Renteria chose Lewis because of the beautiful campus, small class sizes, and prestige of the Criminal Justice program.

Francisco believes the greatest benefit to earning his bachelor’s degree is the fact that he will now become a competitive candidate when applying for a job and it will help him “climb up the promotion ladder” as well.

In addition to the Criminal/Social Justice program, Francisco stated that the ROTC program at Lewis is “one of the best in the country.” He described one of his favorite Lewis memories as the late night breakfast provided for students as a break when studying for finals. “Everyone stops in at some point during the meal and it provides welcome relaxation,” commented Francisco. Francisco graduated in May 2010, and is actually returning to pursue his Master of Science in Public Safety Administration. He hopes to utilize the skills acquired in the law enforcement field and public safety. He said, “My experience at Lewis was wonderful, and your time here will fly by. I feel like I just started yesterday and now I am in the master’s program.”

Dr. Calvin Edwards
Chair, Department of Justice, Law and Public Safety Studies

“The Justice, Law and Public Safety Studies (JLPSS) Department offers unique opportunities for students to gain specific competence in critical areas of criminal justice and public safety. The faculty have diverse backgrounds and expertise and most have held positions of significant responsibility in the fields of criminal justice, public safety and management. This has been a hallmark of the department and has contributed to its good reputation and recognition of excellence.”

FACT
35 acting police chiefs, superintendents and deputy chiefs hold Criminal/Social Justice degrees from Lewis University. A significant number of firefighters who hold positions of leadership in the Chicago area, also have earned graduate degrees in Public Safety Administration from Lewis University.

FACT
The new minor in cyber security was developed specifically with Criminal/Social Justice majors in mind.
The College of Education prepares students to be educators who possess the knowledge and skills of their profession, and the values to use that knowledge in a way that will positively impact schools and the larger community. **Saint John Baptist de La Salle, the patron saint of educators, encouraged teachers to “touch the hearts of their students.”** You will learn how to inspire your students in the classroom to exceed their potential.

**Kathleen Jagow**

Special Education major  
West Leyden High School,  
Melrose Park, Illinois

Kathleen “KC” Jagow is a Special Education major in the College of Education from Melrose Park. KC chose Lewis because the College of Education had a “great reputation.” KC said, “**I thought since I was a commuter student, that I wouldn’t make friends, but the opposite is true! I have made a ton of friends—I love it here!**” exclaimed KC. “There are so many ways to become involved on campus,” said KC. She is a member of the Best Buddies Program, a program that partners those with special needs with a “buddy.” KC described her professors in the College of Education. “My professors are amazingly supportive. I have no problem going to my professors, they really want you to succeed and work with you until you understand all the concepts,” said KC. She plans to teach in a junior high setting upon graduation in 2011.

**FACT**

Education majors can choose from more than 130 schools to complete their student teaching.

**FACT**

Each summer, Education faculty and students participate in a study abroad trip to experience firsthand some of the cultural challenges and opportunities in other countries.
Real-world education for nursing students begins in new state-of-the-art simulation labs on campus. You will learn complex skills and practice problem solving in the clinical simulation labs which include a variety of computers and technical monitoring equipment, including new fully computerized “Sim Man” Mannequins that simulate possible health scenarios of human physical symptoms.

New spaces were also designed for students to work in teams, share ideas, congregate and support each other as they learn both the important science and art of nursing. The College of Nursing and Health Professions offers both bachelor’s and master’s degree programs accredited by the Commission on Collegiate Nursing Education (CCNE).

Ann Oberbruner
Nursing major
Naperville Central High School
Naperville, Illinois

Ann Oberbruner chose to attend Lewis University for its well-known nursing program and tennis program. She said, “I want to be a nurse because I deeply care for others and I believe that human life should be respected and those who are sick deserve quality care.” She played NCAA Division II Tennis for Lewis her freshman year, worked part-time and commuted to Lewis. Sophomore year she lived on campus and was a Peer Minister. She was a member of the National Society of Collegiate Scholars (NSCS) and the National Student Nurse’s Association (NSNA). At Lewis, she was a member of the President’s Student Advisory Council (PSAC) and serves as Chapter President of Lewis’ Student Nursing Association (SNA).

In 2010, Oberbruner was elected the President of the Student Nurses Association of Illinois (SNAI). She said, “I became active in SNA because I love the opportunity to be involved with organizations and build leadership skills so I can be prepared to enter the professional world with these experiences under my belt.”
You will gain more than just an academic education in the world of business at Lewis University. Students are inspired to become ethical leaders through real-world challenges experienced by working with corporations through internships and study abroad opportunities. Lewis students have been placed at a number of prestigious firms, including Merrill Lynch, McDonald’s Corporation, Leo Burnett Advertising and Walt Disney World. College of Business programs are accredited by the Accreditation Council for Business Schools and Programs.

Furqaan Mustafa
Management Information Systems major

Furqaan Mustafa graduated with a Bachelor of Science degree in Management Information Systems and earned a 3.79/4.0 cumulative grade point average (GPA) and a 4.0/4.0 GPA in his major. Mustafa credits the University with teaching him how to “think big and have a positive outlook. Professors at Lewis motivated me to strive harder and achieve bigger goals in life.” His work ethic earned him the College of Business Champion Award, an award given to a Lewis business student who demonstrates the Mission of the University. Furqaan was recently hired by Chevron as an IT Business Analyst in San Francisco. Mustafa began his career as an information technology Sarbanes-Oxley (SOX) compliance intern at Navistar International in the corporation’s Information Technology Development Program (IDTP), where he debugged applications as well as updated database management systems, among other duties.

FACT
International travel study trips to China, Dubai, Vienna, Austria, Prague, and London give business students an opportunity to interact with industry leaders and experience firsthand the global economy.
focused on excellence

Aviation Program
Lewis’ pass rate for students who complete the Federal Aviation Administration (FAA) Aviation Maintenance Technician (AMT) Exam for Powerplant, Airframe and General has consistently been above the national average.

Nursing Program
Recent graduates of the College of Nursing and Health Professions achieved a 98 percent pass rate on the National Council on Licensure Exam (NCLEX-RN), surpassing state and national averages. That success ranks Lewis University’s nursing program as a top performer both statewide and nationally.

RANKINGS & RECOGNITIONS

• Nationally accredited programs - Athletic Training, Aviation, Business, Education, and Nursing

• Online Flyer newspaper winner of Associated Collegiate Press Pacemaker Award

• Lewis University is recognized by the Colleges of Distinction.

• For the seventh year, Lewis University is included among the institutions featured in The Princeton Review’s The Best Midwestern Colleges.

• For the seventh year, Lewis University is rated in the top tier of the Best Universities–Master’s in the Midwest in U.S. News & World Report’s “America’s Best Colleges.”
Looking to expand your horizons and your worldview by studying abroad? Our membership in a consortium of Lasallian colleges and universities gives our students access to a broad selection of international study opportunities. **Study abroad semester opportunities are available in Argentina, Australia, Brazil, England, France, Ireland, Italy, Mexico, South Africa and Spain.** In addition, Lewis faculty frequently offer 10- to 14-day travel study trips for credit when regular classes are not in session.

Picture your favorite destinations and find out if we can help get you there.

---

**Dr. Ian Gladding**  
Professor of Business Administration and the Director of Contemporary Global Studies and International Business Program

“My job is to enhance student learning with a global perspective,” explains Dr. Ian Gladding, Professor of Business Administration and the Director of Contemporary Global Studies and International Business Program. Since coming to Lewis in 1999, Dr. Gladding has accomplished that goal and much more. As the University’s first Director of International Initiatives, he has developed opportunities for students to study a semester abroad as well as to participate in short-term travel-study programs.

In 2002, Dr. Gladding was awarded a Fulbright grant to teach international business at China’s prestigious Zhongshan University for a semester. Since then he has led Lewis student groups to China and also guided College of Business students and faculty members on an international business-themed trip to Europe. Dr. Gladding believes the international perspective gained through these experiences is important for all students.

“The world is getting smaller and increasingly interdependent; national economies are increasingly dependent upon each other. We are all interlinked via satellite and other types of communication technologies. That makes it increasingly important for companies and citizens to understand both their customers and changes in the dynamic global marketplace,” he adds.
Lewis offers more than 80 majors and minors designed to prepare students for a professional life. You can further customize your education with minors that will enhance your skills.

In a world full of differences, our Lasallian heritage is one of unity, understanding and compassion. Our Mission value of “Association” inspires us to unite in mutual respect and collaboration, while recognizing your uniqueness. You will join a welcoming and open community.

FACTS
- 30% minority population
- 40% non-Catholic faiths
- 25 international countries

SERVICE TO OTHERS
Service is a big part of the Lasallian heritage. It’s part of our Mission and is essential to the fabric of the college community. Through University Ministry, our students regularly volunteer at soup kitchens, shelters, schools, churches and local service agencies.
the perfect location!

AN ENGAGING ENVIRONMENT

When you visit Lewis University, you’ll understand why many of our students say it’s the most attractive college campus they’ve seen. Brand new and recently renovated facilities as well as more historic buildings are all surrounded by spacious and beautifully landscaped grounds and gardens. You’ll find state-of-the-art accommodations in our newest residence halls, updated classrooms, renovated dining halls and athletic facilities, all designed with modern-day safety concerns in mind.

FACT

Lewis University students benefit from our proximity to a large metropolitan area with its many opportunities for internships, community service, employment, entertainment and more.

The Arbor Day Foundation recently honored Lewis University as a Tree Campus USA University for its dedication to campus forestry management and environmental stewardship.
The main campus of Lewis University is conveniently located off of Interstates 55, 355 and 80.

CONVENIENTLY LOCATED

Along with convenient access to Chicago, you will enjoy a peaceful and open campus environment removed from the congestion of a major metropolitan area. Our convenient location is a plus for both resident and commuter students. Lewis University is close to home for some; for others it’s close to airports and public transportation.
Lewis offers students a dynamic environment, from creative pursuits to community service to Division II athletics. **Get involved in campus life!**

**Twelve residence halls** on campus house 1,300 students. They provide students an opportunity to learn how to appreciate diversity by living and working with people different from themselves. Students learn decision-making skills, they develop independence, they gain self-confidence, and they learn to accept responsibility.

**Athletic facilities** are places for our students to compete, stay in shape, and have fun. They include the Student Recreation and Fitness Center, Neil Carey Arena, and fields for softball, baseball, soccer, tennis and intramurals.

A new multi-purpose athletic and recreation complex and track will feature a multi-purpose field for intramural and competitive events, a NCAA – certified, nine-lane track, as well as lighting and seating.

The Student Recreation and Fitness Center provides many opportunities for your personal development, including cardiovascular and weight training machines, free weights, an 8-lane collegiate-size swimming pool, and an indoor track and fieldhouse.

Lewis Flyers compete in 18 **NCAA Division II** sports and the **GLVC Conference**.

Lewis offers a variety of **clubs and organizations** for academic as well as social interests.

**Intramural sports** provide students with team and individual recreation opportunities.
Campus activities include:

- **Academic opportunities** like the Aviation Flight team, the Mock Trial team, the Mediation team, or production of a television or radio show.

- **Community volunteerism** like Big Brothers/Big Sisters and Teachers of Tomorrow.

- **Personal growth opportunities** like singing in the Gospel Choir, playing in the Jazz Band, or performing in a Theatre production.
LEWIS UNIVERSITY

award-winning athletics

STRONG MINDS. STRONG BODIES.

Lewis University has been a proud, highly successful member of NCAA Division II and the Great Lakes Valley Conference for more than a quarter of a century. Flyer teams have captured 82 GLVC championships and have made 146 NCAA postseason appearances. Lewis has won the GLVC All-Sports Trophy 13 times and, in 1996 and 2001, finished 10th nationally among Division II institutions in the annual National Association of Collegiate Directors of Athletics competition that recognizes the nation’s top intercollegiate athletics programs. Lewis also is a member of the Midwestern Intercollegiate Volleyball Association (men’s volleyball) and the Great Lakes Intercollegiate Athletic Conference (men’s and women’s swimming). You can follow all of the excitement of Flyer athletics at www.LewisFlyers.com.
**Flyer Facts**

The Brother David Delahanty Award is presented to student athletes with a cumulative GPA of 3.25 or higher. After a steady increase in numbers over the past seven years, the Lewis University Athletics Department set a new school-record in 2011 as 156 student-athletes received Delahanty Awards in 2010-11.

In 2010, 132 student athletes were honored in GLVC All Academic selections among the GLVC’s 15-member institutions.

Lewis men’s tennis player and recent graduate Lorenz Pestinger was an Academic All-America Third Team selection.

Student Athletes won the 2010-11 All-Sports Trophy for GLVC.

Lewis had five College Sports Information Directors of America (CoSIDA) Academic All-District selections in 2009-10.

With projects ranging from Relay for Life and Habitat for Humanity to supporting the Make A Wish Foundation, at least 60 percent of Lewis student athletes participated in a community service project last year totaling more than 5,000 hours.

Lewis’ four-class average student-athlete graduation rate was 68 percent and the academic success rate was 82 percent.
Be a Flyer!

Who is Bedcheck Charlie? **Bedcheck Charlie, also known as the Lewis Flyer, became the University’s mascot in 1964.**
The character grew out of a popular comic strip in which he was the ghost of a WWI aviator. In the early 1960s, two Lewis students searching to drum up school spirit for the school’s expanding athletic programs, requested and were granted permission from the artist to use Charlie as the school mascot.

---

**Lorenz Pestinger**

*Double-major in Business Administration and Marketing, Men’s Tennis*

Bad Homburg, Germany

Lewis University men’s tennis player Lorenz Pestinger had the uncanny ability to rack up aces on the tennis court and ace his tests at the same time, as the Bad Homburg, Germany native was the 2011 male recipient of the Brother David Delahanty Senior Student-Athlete Award.

Pestinger, who was named the Lewis Male Senior Student-Athlete of the Year, owned a 4.0 cumulative GPA with a double-major in business administration and marketing. He is a two-time Br. David Delahanty Award winner, given to Lewis student-athletes for academic success, and a two-time Academic All-Great Lakes Valley Conference honoree.

On the court, Pestinger was second on the team with a singles record of 19-9. In doubles action, Pestinger was a combined 21-7.

In his rookie season with the Flyers in 2009-10, Pestinger made a seamless transition to the Division II men’s tennis game, as he won 19 singles matches, primarily at No. 5, while earning a combined total of 21 doubles victories. That performance helped Lewis to its first ever berth into the NCAA Men’s Tennis Tournament.

A member of the Delta Epsilon Sigma National Catholic Honor Society, Pestinger is the son of Andrea Wiemers-Pestinger and Gunther Pestinger.
Carol Kruckman
Biology major, Women’s Basketball
Libertyville High School
Libertyville, Illinois

Carol Kruckman is the 2011 female recipient of the Brother David Delahanty Senior Student Athlete Award. Kruckman, a member of the Lewis women’s basketball team, is a biology major with a 3.99 grade point average. A native of Libertyville, Ill. and a Libertyville High School graduate she has made the Deans’ List seven times and earned her fourth Academic All-Great Lakes Valley Conference honor at the conclusion of the 2010-11 season.

Her senior campaign was the best of her career. She appeared in 29 games with seven starts. She scored 176 points and grabbed 51 rebounds including 26 on the offensive glass. Kruckman finished the season with a team-best 54.2 percent field goal percentage. She had seven games of double-digit points. Kruckman helped her squad win the 2010-11 GLVC Championship and earn a berth in the NCAA Tournament.

Kruckman is the president of the Tri Beta Biological Honors Society. She’s also served as a tutor at Lewis for three years. Last summer she held an internship at the Colorado Wolf and Wildlife Center in Divide, Colo. She plans to enroll at the Michigan State University College of Veterinary Medicine.

FACCTS

60% of freshmen choose to live on campus.

1,300 students live in 12 residence halls.

Wireless Internet access, cable, laundry, microwave, and microfridge are included in room and board costs.
If you choose to live on campus, you will find **there is much more than convenience to help you make your experience in the residence halls enjoyable and memorable.**

In the place you will call “home,” you will discover opportunities for meeting other residents who have similar interests and with whom you will study, order late-night pizzas, attend social events, and engage in many other activities that are of interest to you.

Learn about the programs and services available to our residents and see for yourself the benefits of living in University housing.

- Opportunities to meet new people and develop lifelong friendships.
- Steps away from classes, the library, dining halls, and recreational areas.
- Nutritionally prepared meals offering multiple choices, including breakfast, lunch and dinner options.
- Social, educational, cultural, and recreational opportunities are available in all residence halls. Intramural sports, movies, parties, etc. are samples of housing events.
- If quiet time is what you wish, study areas are available in each building. Laundry and cable are provided free of charge.
- Live-in staff are available for support and guidance on just about any topic from academic and personal issues to career decisions.
Financing your education is important! We will work with you to apply for scholarships, grants, and loans. **Lewis provides some form of financial assistance to 85 percent of our students.**

**FACT**
Lewis belongs to the Federal Yellow Ribbon Program for veterans. Qualified veterans will be eligible for tuition benefits.
A GREAT VALUE

Our low tuition makes us one of the most affordable private colleges in the Chicago area and the state of Illinois. It’s part of our Lasallian tradition to remain affordable and therefore accessible to a diverse student population.

Costs for the 2011-12 academic year are as follows:

- Tuition for a full-time undergraduate student: $24,770/year
- Room and board charge: $8,900/year

Most students cover the costs of their Lewis University education with scholarships, grants, loans, savings and student employment. All students admitted to Lewis University are considered for financial assistance, but families must complete and file the FAFSA (Free Application for Federal Student Aid) in order to be considered. Lewis’ federal code is 001707.

WHAT YOU CAN EXPECT

Calculate the possibilities for your Lewis University financial aid package. It’s easy. Just visit our online scholarship calculator at www.lewisu.edu/financial/scholarshipcalculator and do your own scholarship calculation.
We invite you to learn more about what Lewis has to offer, either online or in person. **Prospective high school and transfer students are invited to attend an upcoming Campus Visit Day.**

- Take a campus tour with a current student
- Learn about scholarship opportunities and financing of your education
- Meet with a professor
- Learn more about our unique offerings

**Campus Visit Days Schedule**

- **Monday, October 10, 2011**
  * (Columbus Day observed)
- **Saturday, November 12, 2011**
- **Saturday, December 3, 2011**
- **Saturday, March 17, 2012**
- **Saturday, April 14, 2012**

**Personal Visits**

We’ll host you anytime—give you a tour, let you attend a class, schedule a meeting with a professor or coach, and even let you spend the night in a residence hall.
