Section 4. First Aid Measures

Eye Contact: Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Obtain medical attention if irritation persists.

Skin Contact: Wash with soap and water. Obtain medical attention if irritation persists. Cold water may be used.

Inhalation: If inhaled, move to fresh air. If not breathing, give artificial respiration. Obtain medical attention if irritation persists.

Ingestion: Do not induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person. Obtain medical attention.

Notes to Physician: Not available.

Section 5. Fire Fighting Measures

Flammability of the Product: May be combustible at high temperature.

Autoignition Temperature: Not available.

Flash Points: Not available.

Flammable Limits: Not available.

Products of Combustion: Decomposes when heated to temperatures above 801 degrees C, may release toxic fumes of chlorine and sodium oxides.

Fire Hazards in Presence of Various Substances: Not available.

Fire Fighting Media and Instructions: Use extinguishing media suitable for surrounding materials.

Protective Clothing (Fire): Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear.

Special Remarks on Fire Hazards: Not available.

Special Remarks on Explosion Hazards: Not available.

Section 6. Accidental Release Measures

Small Spill and Leak: Use appropriate tools to put the spilled solid in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.

Large Spill and Leak: Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.

Section 7. Handling and Storage

Handling: Avoid breathing dust. Avoid contact with incompatibles.

Storage: Keep container tightly closed. Keep container in a cool, well-ventilated area.

Section 8. Exposure Controls, Personal Protection

Engineering Controls: Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Personal Protection:

Eyes: Safety glasses.

Body: Protective clothing may be worn in dusty area, but is generally not required.

Respiratory: NIOSH approved filtering facepiece may be necessary.
