PHYS 20000 College Physics I*	PHY 101	General Physics (Mechanics, Heat & Sound)
PHYS 20100 College Physics I Lab*		
PHYS 20500 College Physics II*	PHY 102	General Physics II (Electricity, Magnetism, Optics & Modern Physics)
PHYS 20600 College Physics II Lab*		
MATH 20000 Calculus I	MAT 131	Calculus and Analytic Geometry I

*a three semester Calculus-based Physics sequence is an acceptable substitute

The student should also realize that ALL LABORATORY COURSES are to be taken in conjunction with the lecture sections for all Biology, Chemistry and Physics courses. Most graduate/health care programs require (at the very least, strongly suggest) a lab component for all science classes.

To complete the degree in a timely manner, Lewis University's Biology program strongly suggests the student take multiple general education classes IN ADDITION TO the aforementioned science/math classes. Please work with your college counselor to choose courses that are complimentary to the IAI general education curriculum as well as completion of the Associate's degree at your institution.
