

## **Experiential Learning Co-Curricular Activity Description**

---

The information below is meant to help you create a description of your experiential learning opportunity that could be shared with students. Please be clear and concise in the information included. Remember that this will be something you can share with students, so it should be written as if a student is the audience.

**Title of Experience:**

**Description of Experience:**

**Student Expectations:**

**Sponsoring Office of Campus Unit:**

**Contact Person and Information:**

During this experiential learning opportunity, students will engage in ways that help them to explore the following learning outcomes in a variety of ways. The chart below details *how* students will engage each of the student learning outcomes associated with experiential learning. **NOTE: Reflection is a required component of EL. If you wish, you can incorporate various forms of Reflection into “How students will explore the outcome.”**

<b><i>Student Learning Outcomes</i></b>	<b><i>How students will explore the outcome</i></b>
Identify connections between this learning experience and past or present learning or experiences	
Articulate their personal response to the learning experience(s)	
Describe how they anticipate applying what they have learned
