YOUR SUCCESS
Unmanned Aircraft Systems

The unmanned aircraft system (UAS) industry is set for unprecedented growth. Lewis is one of the few schools in the nation that can offer you the direct experience and degree you need to launch your career in this high-paying and dynamic field.

Lewis was founded in 1932 as an aviation technical school, when visionaries recognized the impact commercial air travel would have on the world. This spirit of innovation and forward thinking has propelled Lewis to become one of the leading mid-sized, Catholic universities in the country.

As a comprehensive university, we are big enough to offer you the opportunities and resources of a larger university...yet small enough to give you the personalized attention and guidance you need to achieve your future success.
Higher education is the most important investment you will make in your future. We honor your commitment by providing a lasting education that will launch you toward success today and the careers of tomorrow.

When you earn a degree at Lewis, you will develop the qualities employers are seeking:

- An ethical framework for decision making
- Teamwork and leadership capabilities
- Global awareness and understanding
- Ability to think critically and solve real-world problems
- Enhanced technology skills

With ongoing advances in technology, engineering and artificial intelligence, your dreams for your future should have no limits. Lewis is committed to helping you get there.
Cadaver Lab

The Lewis cadaver lab has taken the Functional Human Anatomy Laboratory class to a new level. Our students are able to gain invaluable experience with the human body to prepare for and excel in graduate school.

Innovative, forward-thinking programs and experiences prepare you for the careers of today and those to come. We’re focused on preparing you for your first career out of college as well as for your career at age 30, 40, 50 and beyond.

At Lewis, we develop “master learners” — graduates who have the long-term ability to adapt and thrive with the changing demands of the workplace.

Many colleges will offer you a degree. We offer an empowering experience that will keep you on the forefront as a highly skilled and continuously growing professional.

Many of the most in-demand careers of today did not exist 10 years ago. Lewis continuously develops new programs to support the careers of tomorrow. Data analysts, drone pilots, cyber security and forensics are just a few examples.

At Lewis, our academic degree programs match the requirements of the market’s high-demand fields, offering professional preparation grounded in a liberal arts foundation.
Saint John Baptist de La Salle is the Patron Saint of Teachers who founded the Christian Brothers more than 300 years ago. Today, the De La Salle Christian Brothers and our faculty continue the tradition of preparing students for life, work, and service to a global society. Our primary focus is on improving society through education and teaching.

Our faculty are industry professionals who know how to teach and will share their experience. We know there is more than “textbook” learning and they will show you how to ask questions, do research, and apply knowledge to solve real problems.
Develop the critical thinking, decision-making, teamwork and communication skills valued by employers.

From day one, you’ll quickly become involved in your major coursework and have opportunities to work on real-life issues, both in and out of the classroom.
For the past five years, our nursing graduates have the highest licensure pass rates of all nursing programs in Illinois.

With small class sizes of 15-30, students at Lewis receive personal attention from faculty who are experts and practitioners in their field.

These interactions provide you with hands-on learning experiences and deep relationships with faculty that will shape your personal and professional endeavors.

The classroom is just the beginning of your Lewis experience. Through simulations, class projects, research in partnership with corporations, clinical experiences, volunteer programs and internships, you will have opportunities to experience the world of work beyond your graduation.

You will have opportunities to push your limits, test your boundaries and become your best self. Even better, our size means you will be an active participant... not just another student in a large lecture hall classroom.
In a world full of differences, our multicultural community comes together as one Lewis family. Here, you are a valued member...not just a number in the crowd.

You will benefit from opportunities equivalent to a much larger university, but at a place where you can be actively involved.

You will discover passions you never knew you had.

As a campus resident or commuter, life at Lewis will surround you with friends, fun and endless opportunities.

**BIG BROTHERS BIG SISTERS**
For more than 15 years, Lewis has partnered to mentor at-risk children in grades 1-5.

**BOLIVIA MISSION TRIP**
Sucre, Bolivia is an annual experience which is part of the larger Joliet Diocesan University Mission trip. Service includes education and medical help to orphanages, daycare centers and hospitals.

**HABITAT FOR HUMANITY**
Students, faculty and staff help build homes.

**CATHOLIC CHARITIES’ HEAD START PROGRAM**
University Ministry along with nursing students and faculty put together a health education program for Spanish-speaking families in the region.
We know that a big part of your college experience should include events and activities where you can enjoy your surroundings and friends. Lewis offers more than 100 student organizations and clubs for you to get involved with.

**STUDY ABROAD**
Lewis provides students the unique chance to complement and enhance their academic experience with a variety of international opportunities.

2 7 CHAMPIONSHIPS IN 2015-16

SUCCESS ON THE COURT

Dora (left) and her doubles partner, Nora Mindiyarova from Russia, were named ITA All-American in 2017.

STUDENT TALK

DORA ANDREJSKI

In her native Hungary, Dora Andrejski had to choose one: tennis or education. At Lewis University, she was able to choose both.

As an Exercise and Movement Science major and a nationally ranked member of the Lewis University Women’s Tennis Team, Dora met her challenges by developing her time management skills. “My professors and coaches look out for me,” Dora said, “and the tennis team was so welcoming,” she added.

Lewis University’s athletic programs promote the development of the whole person and the overall education experience. “We are reminded at the beginning of every semester that our priority is to be students first, then athletes,” Dora said.
Our Flyers Get Hired program will work with you to develop your “professional self.” With more than 40,000 alumni, you will have great networking connections. Direct access to internships and jobs throughout the Chicago area will give you a competitive edge.

Our Annual Career Expo brings over 100 employers to campus each spring to interview students.

THE PERFECT LOCATION

Our ideal location offers a beautiful, self-contained, safe college campus.

Endless Opportunities

Just 35 miles southwest of Chicago, you will have access to museums, cultural resources, internships and job opportunities.

STUDENT TALK

VALERIE PETERSON

Valerie has found many opportunities at Lewis for community outreach, something she loves to do. “I feel as though the work I do with campus organizations has allowed me to grow into the person I am today,” Valerie explained.

Valerie emphasized that being involved on campus has allowed her to make connections and network with people she never thought she’d meet. The Student Senate, Academic Affairs Committee and University Ministry are just a few organizations that have helped her develop her leadership skills with real world examples. Valerie said, “Participation in these organizations helped me improve on my professionalism and my business etiquette.”

She stated that Lewis offered her the ideal learning environment to prepare her with a well-rounded and comprehensive business foundation. She said, “Lewis University welcomed me into a home away from home, where everyone I met cared about me and my future.”
A Lewis education pays dividends for a lifetime. Your degree from Lewis will start you on a path toward:

- Higher salary
- Greater job satisfaction
- Career advancement
- Success in graduate school
- Stronger purpose and meaning in your life, career and community

In addition, *Money Magazine* named Lewis nationally as “One of the Best Colleges for Your Money.”

Attending college is an investment of time and money. We realize that. It is part of our Lasallian tradition to remain affordable and accessible to a diverse student population.
Attending a school like Lewis University increases your likelihood of graduating in 4 years by over 20% versus public universities. Source: National Postsecondary Student Aid Study (2012)

$42 Million was awarded in institutional grants and scholarships in 2017-18.
SEEING IS BELIEVING!

As soon as you step foot on our campus, you will immediately see why Lewis is one of the best private universities in Illinois.

To Apply Now, visit lewisu.edu/apply and you’ll receive information on scholarships, financial aid, housing and more!
VISIT OUR CAMPUS

CAMPUS VISIT DAYS

A personal meeting with an admission counselor and a student-guided tour of campus. Monday-Friday 8:30 am-5 pm and on most Saturdays from 9 am-noon.

TRANSFER SATURDAYS
A condensed program with information on degree programs, the transfer admission process, credit transfer and scholarship opportunities.

RSVP online at lewisu.edu/visit or call (815) 836-5250 or (800) 897-9000

STUDENT TALK
MARY HUGGINS
Since Mary was in high school, she knew she wanted to work in the Criminal Justice system – she just didn’t know how to start. With Lewis’ Criminal Justice program, she found a lot of different options, determining that law was the best fit for her. She said, “Once you find your best fit, Lewis has a program that will help you get to your goal.”

Mary said, “I chose Lewis University for a few reasons - the nationally ranked Mock Trial Team and the excellent coaching staff were a big influence.”

Mary loved the beautiful campus and said, “The campus is just gorgeous, throughout all the seasons; it’s always just beautiful. I’m from the desert so all the green is really amazing to me.”
